DAILY CLEAN

To provide hassle-free maintenance, a microfiber cloth is a convenient choice to keep Quadra surface free of dirt, dust or debris.

1. Soak the microfiber cloth in warm water;
2. Add Quadra recommended cleaning agents for a thorough cleanse;
3. Wipe throughout the surface. Soak the cloth repeatedly to keep it damp;
4. Rinse with clean water;
5. Dry with a clean cloth.

DEEP CLEAN

For special cases, a deep clean may be required to remove certain stains such as coffee, ink/dye, nail polish, etc. Aggressive, Quadra recommended chemical products are needed to remove these stains efficiently. It is advisable to clean tough stains as soon as possible before it has set in to avoid long-term staining.

Tip : *It is advisable to test on a small patch of the staining area first to check its effectiveness. If effective, continue with the rest of the surface. Avoid using any non-recommended product as a cleaner.*

PEMBERSIHAN RUTIN

Untuk kemudahan pemeliharaan, kain mikrofiber dapat digunakan untuk membersihkan permukaan Quadra dari debu dan kotoran.

1. Basahkan lap mikrofiber dengan air hangat;
2. Tambahkan cairan pembersih rekomendasi Quadra;
3. Bersihkan permukaan menggunakan lap. Basahkan lagi jika mulai mengering;
4. Bilas permukaan dengan air bersih;
5. Keringkan permukaan menggunakan lap kering.

PEMBERSIHAN INTENS

Dalam keadaan tertentu, pembersihan lebih intens dibutuhkan untuk membersihkan noda membandel seperti kopi, tinta, cat kuku dan lain-lain. Kimia khusus (sesuai rekomendasi) dapat digunakan untuk menghilangkan noda tersebut, tanpa merusak permukaan. Sangat dianjurkan untuk membersihkan noda sebelum mengering.

Tip : *Dianjurkan melakukan pembersihan di area kecil terlebih dahulu untuk menguji efektifitasnya. Jika efektif, lanjutkan dengan pembersihan menyeluruh. Hindari penggunaan cairan pembersih yang tidak direkomendasikan di tabel.*
